

Ultra MD Brightening Serum

Developed to visibly diminish the appearance of mild or advanced pigmentation and help minimise future skin discolouration, this product contains a powerful blend of skin brightening agents (Artocarpus Extract, Bearberry Extract, Niacinamide). Also containing an optimal blend of highly effective exfoliating ingredients (AHAs and BHA), this potent brightening formula is the ultimate serum to improve texture, clarity and luminosity.

Key Ingredient: Artocarpus Extract - contains oxyresveratrol, a naturally derived lightening and brightening agent that has been reported to be over 30 times more effective than kojic acid at inhibiting melanin production in vitro.

Ultra MD Firming Serum

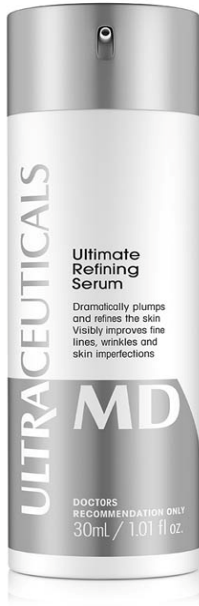

This serum contains the potent peptide fragment Microelastin[®] which supports the skin's natural dermal renewal process. It also contains 15% pure Vitamin C and acts to visibly firm, smooth and tighten the surface of the skin for a more youthful looking appearance.

Key Ingredient: Microelastin[®] peptide - A fragment of human elastin that supports the natural dermal repair process. Microelastin[®] helps to visibly improve age related skin damage including fine lines, wrinkles and loss of firmness.

Ultra MD Refining Serum

This star performer contains potent levels of our exclusive advanced stabilisation and delivery technology, ULTRA-Reti™ Microparticles (long-life pure retinol microparticles). Featuring pure Retinol, supported by the action of Pro-Vitamin C and the enzyme Bromelain, this serum has been developed to support the skin's production of collagen and elastin. This product has been clinically tested and shown to refine and improve the appearance of skin clarity, texture, hyperpigmentation, fine lines, wrinkles and imperfections.

Key Ingredient: New ULTRA-Reti™ encapsulation and delivery technology features retinol embedded into a soft wax protection, stabilisation and delivery system. This ensures ensures ingredient potency and effectiveness.

Ultra MD Ultimate A2 Anti-Ageing Serum

This advanced formula combines the effectiveness of the two most potent non-prescription forms of Vitamin A available. It contains our exclusive bioactive Retinol and Retinaldehyde ULTRA-Reti™ Microparticles. Designed to support the skin's cell regeneration cycle, this ultimate anti-ageing serum helps to dramatically transform skin affected by mild to advanced photodamage, congestion and dullness to reveal a smoother, firmer and more luminous complexion. Suitable for skin that has been pre-conditioned by Ultimate Refining Serum.

Key Ingredient: Retinaldehyde - The ingredient retinaldehyde is more expensive by weight than gold. A powerful yet gentle ingredient, Retinaldehyde is a natural form of Vitamin A found in skin cells which acts to help cellular repair.

Ultra MD Ultimate B2 Hydrating Serum

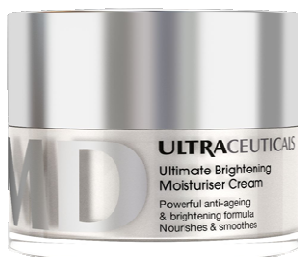

This moisture enhancing serum utilises the humectant and emollient moisturising power of Vitamin B5 (Panthenol) with the lipid barrier strengthening power of Vitamin B3 (Niacinamide) to synergistically draw moisture to the skin, keep it there and provide soft emolliency. Ultimate B2 Hydrating Serum also contains Hyaluronic Acid to synergistically help restore vital moisture balance and provide long-lasting hydration.

Ultra MD Ultimate Eye Cream

This correcting eye cream contains Ultraceuticals exclusive Ultra-Reti™ microparticles (advanced Retinol stabilisation and delivery technology) combined with a powerful complex of firming peptides to visibly smooth and diminish the appearance of fine lines around eye area. Ultimate Eye Cream is enhanced with moisture rich and soothing ingredients, including Bisabolol, Liquorice Extract, Ceramides and Shea Butter, to support retinol tolerance and nourish the skin around the delicate eye area. All skin types.

Ultra MD Ultimate Brightening Moisturiser Cream

This powerful anti-ageing cream combines high levels of potent brightening ingredients (Melissa Of-ficinalis, Vitamin B3 and Methyl Jasmonate) to help visibly reduce the appearance of dark spots and blotchiness. Featuring an advanced moisturising complex, this formula helps support the skin's Natural Moisturising Factor (NMF) and lipid barrier. Paraben free. Fragrance free.

Ultra MD Ultimate Diminishing Complex

This powerful hydroquinone-free skin brightening formula is designed to dramatically reduce the appearance of mild to advanced hyperpigmentation and to help minimise the appearance of subsequent discolouration. This serum features potent brightening ingredients (Artocarpus, Niacinamide and Melissa Officinalis Extracts) with the bio-exfoliating agent (Methyl Jasmonate) to help enhance skin radiance and clarity. Suited to all skin types including sensitive or skin prone to AHAs or BHA intolerance. Paraben free. Fragrance free.

Ultra MD Ultimate Brightening Foaming Cleanser

This foaming cleanser provides a rich silky lather and has been formulated to gently remove make-up and daily residue, leaving the skin looking brighter, refreshed and radiant. Featuring a potent complex of Vitamin B3, ProVitamin B5 and brightening ingredients, this formula works to perfectly balance moisture levels and prepare the skin for the application of Ultra MD treatment products. Ideal for all skin types. Paraben Free. Fragrance Free.
